## Activity

### I can change the world with my own two hands!

- Help your child trace their hands on construction paper, and then cut out the tracings.
- Draw a circle for the world (large enough for the hands to fit on with some room).
- Let your child color the world with blues and greens, and their hands whatever color they want. Write the words from the song "With My Own Two Hands" if there is room. Listen to the song and talk to your child about ways that their words and actions can make a difference.
